to-bottom survey of the building completed by Pyramid Architecture and Engineering in January of 2015 revealed even more extensive problems than were previously known.

Plans are underway to complete the "gutters & up" portion in 2015, and we also hope to complete the rest of the exterior phase this year. The museum will remain open as the work is completed.

The Board of Directors, staff, and volunteers of the Indiana Medical History Museum are dedicated to ensuring the future well-being of the Old Pathology Building and its incredible history, but we need your help!
